EXPERIENCE

Finnegan Tech, Danbury, CT —Software Engineer

February 2021 - Present

Developing frontend applications using React.js and consuming REST API's.

Developing backend API using express.js, Knex.js, and writing SQL queries to interact with Postgres.

Designing normalized database schema to support application requirements.

Following development best practices such as using Twelve Factor App, single-command builds/Dockerized applications, and GitHub source control.

Helping stakeholders plan and think through vague requirements and create actionable development tasks.

Developing websites and web applications with a focus on responsiveness and thoughtful UI.

Autism Behavioral Health, Danbury, CT — *Behavior Technician*

March 2020 - Present

Providing in-home and center-based services to autistic individuals ages 3 to 13 and implementing evidence-based treatment using applied behavioral analysis, with integrity and fidelity.

Recording and documenting data collected during intervention.

PORTFOLIO

Yelp Clone

https://yelp-clone-frontend-7rh79.ondigitalocean.app/home
